B.free 50

AVAILABLE FROM 22.10.2025 UNTIL WITHDRAWAL.

Billing increment: 60/60

Customers may only register for or switch to this tariff during the registration period.

Please note that this tariff is not available for roaming.

All fees listed in EUR in the table are stated inclusive of statutory value-added tax (VAT).

1. Minimum credit per 4 weeks* **0.00**

***Service fee in case of inactivity:** **0.90**

If you consistently fail to use your B.free telephone number for more than three billing periods by topping up credit or for active voice calls, SMS messages (incl. MMS messages) or data traffic, we will apply a new service charge of €0.90 per inactive billing period until you actively use your number again.

2. Connection fees per minute

2.1. Connection fees per minute for voice calls

A1 calls to A1 Mobil, Mobilbox, direct link (0664 67), landlines, private networks (05) and other mobile phones	00:00–24:00	0.50

A1 multimedia (MMS) messages to other mobile phones per SMS[2]	00:00–24:00	0.60

Please note: From 31/12/2025, A1 will **no longer offer the service** to send/receive MMS messages (as defined in Item 6.1.8 SD Mobil).

2.3. Data fees

This tariff is 5G-capable, subject to the use of a compatible device and the availability of the 5G network. The advertised maximum speed in the Austrian A1 5G network is 100 Mbit/s downstream and 50 Mbit/s upstream and constitutes the maximum speed within the network slice (Network Slice) for which this tariff is technically enabled. The 5G network provides virtual subnets (Network Slices) which, in addition to various network characteristics, also include specific radio cell capacities. Accordingly, the "network layer" (Network Slice) in the 5G network that is usable with this tariff has a maximum capacity in the uplink and downlink as stated above. This gives 5G the flexibility to meet differing requirements of customers and applications on an individual basis. In the event that the network capacities available within the network slice are fully utilized, capacity will be allocated to the user on a proportional basis. In this context, this tariff has a category 6 capacity allocation. Details on the operation of the network management system and the category assigned to the tariff can be found in the terms "A1 Bandwidth Service in the A1 mobile network," which are available on our website. The actual speeds achievable may vary significantly, as they depend on various factors (availability of the radio network, cell load, etc.).

Price per MB of data (billed in 128 kB increments)	00:00–24:00	0.50

4. One-time fees

Blocking fee	30.00
Unblocking fee	30.00
Replacement SIM card[4]	30.00
Transfer fee	30.00
Duplicate itemised bill	4.00
Duplicate invoice	3.00
Interim bill	2.18
Processing fee for failed debit collection	3.00

1) Subject to support from the provider.

2) This fee is also charged if you take your telephone number with you within the A1 brand world.

You can find definitions of terms and other information in "B.free Fee Provisions, General Section".

3) In accordance with the EU Open Internet Regulation (EU 2015/2120), a maximum call price of €0.228 per minute applies to calls from Austria to countries in the EU/EEA unless cheaper terms are agreed in the respective tariff/package. SMS messages from Austria to countries in the EU/EEA are charged at the standard rate but at a maximum of €0.072 per SMS.
If the EU Open Internet Regulation is discontinued or the specified period ends, voice calls will automatically become subject to the terms for calls and SMS messages to the rest of the world.
The same applies to countries not covered by the scope of the EU Open Internet Regulation.
The conditions set out above shall not apply to packages or tariffs with included minutes or SMS messages for international calls and messaging. Such packages and tariffs are exclusively subject to the respective conditions.

4) At the customer's request, if the SIM card to be replaced has been damaged or lost through the customer's fault or if the replacement is carried out at the customer's request even though the existing SIM card is still functional and technically suitable for using the services.

All fee provisions, service descriptions (A1 & B.free SD) and General Terms and Conditions (Mobil GTC) of A1 Telekom Austria are available free of charge at www.a1.net/agb and from A1 Telekom Austria.
